To make the start easier, use the small map at the top left of the Info Rando sign. From the Info Rando sign in the car park, head towards the bridge. Do not cross it, but take the small road that runs alongside the Ardèche. At the junction, follow signs for Balazuc 3.4 km.

1. At the lake, take the path on the right that passes under the climbing site. Leave the path and climb into the woods via the trail on the right.
2. After walking on a slight incline between the oak trees, take the path on the left that descends at the crossroads. In a slight curve, take the trail that descends to the right towards the river. After walking along the Ardèche for 300 m, you will pass just above the Estinettes cave. Climb the path towards the cliff and, at the ring fixed to the rock, follow Lanas for 3.1 km. Continue along the path under the cliff, which offers a beautiful view of the Ardèche and the village of Saint Maurice d'Ardèche, until you reach the pretty hamlet of Servièrre with its stone houses.
3. Cross the hamlet and at the Servièrre junction, follow Lanas for 3.5 km. At the exit of Servièrre at the Les Chabasses junction, follow Lanas for 3 km. Take the path and then the trail up to the Gras plateau. Walk for about 2 km through an environment of holm oaks characteristic of southern Ardèche.
4. After passing the small stone house on the left at the Le Clauzel junction, follow signs for Lanas for 1 km. Descend the path towards Lanas. Admire the Vogüé viaduct, where the Via Ardèche has been built. Cross

the village of Lanas and return to your starting point. Before leaving, take the opportunity to stroll through the village's narrow streets.
