Leave from the hiking information sign located in the post office car park, cross the road and go down to the Place Poullalé car park just below (unless you have parked there). Cross the small submersible bridge and take the small road to the left (there are no hiking signs). After crossing a bridge, turn right. Continue along this narrow road, turning right at the first junction (2) and left at the junction 0.5 km beyond the submersible bridge.

At the hiking signpost, take a 180° turn to the right, still on the road. The signs will guide you from here to stay on the road until you return to the village.

At the end of the descent, leave the signposting and follow the signposting to the right, cross the small bridge

and after the next bridge turn right and then right again over the square to get back to the start. But before you do, don't hesitate to visit the village and have a bite to eat.
