Trek

Departure : Ray-Pic information area on the road D215 at Péreyres. The path starts behind the site facilities.

Cities : 1. PEREYRES

The path, very well marked and safe, will take you to three belvederes with impressive views on the gorge and the waterfall.

1. First, take the path on your right after the information area.
2. After a short walk uphill, a first viewpoint on the Fialouse cup will give you an overall idea of the site (La Roche belvedere). Take the path again, it now goes downhill into woods towards the waterfall.
3. Then you can choose between the cascade belvedere (straight ahead) that will take you higher and offers a side view of the waterfall, or the gorge belvedere on your left, lower but with a broader view of the site. We recommend that you follow this order. Once at the last belvedere, retrace your steps.

! **Advices**

baignade, escalade et feu interdits sur le site.
